**THE PROMISED EXTENSION OF THE P. W. & K. Y. RAILROAD.**  
—The survey was yesterday completed  
in a day or two, and estimates furnished  
of the cost of the proposed extension.  
This report, together with the report of

sion, will be submitted to the directors

**There is said to be sufficient space**  
for the track, without having the rails within  
seven feet of the B. & O. line, this being  
the distance the B. & O. Company can  
claim on each side of their main line. Be-  
ginning at the freight depot of the P. W. &  
K. Y. Company, it is proposed to cross  
the creek on the east side of the present  
B. & O. bridge, and a right of way will be  
purchased from the B. & O. Company, to en-  
able this to be done. The line will then  
proceed along the bank of the river on the  
east side of the present B. & O. track, and  
in front of the Salt City Boat House. The  
terminal point would be the northeast  
corner of Twenty-third and Water streets,  
to be secured by purchase or condemnation.  
The line from there runs in front of  
the old Dettler mill, now used as a  
warehouse, and the line would then run  
on the west side of the Belmont Mill Water  
Works and outbuildings, following the  
bank of the river closely, crossing  
Caldwell's Run west of the B. & O. track,  
then along the top of the bank  
near the Riverside furnace to the Ben-  
wood Mill.
